Work Experience

R1 RCM | Remote

Business Analyst II | Data Vault

January 2024 - Present

- Directed development of a dashboard, defining key requirements and metrics, which enabled usage tracking, identification of conversion opportunities and root issues, and boosted user engagement by 20%
- Spearheaded a 15% reduction in quality assurance time by implementing a robust process foundation and documentation, ensuring product integrity, stakeholder alignment, and a 10% increase in productivity
- Orchestrated stakeholder engagement and crafted entity relationship diagrams for 3 applications, accelerating the creation of data vault models by engineers by 25%
- Generated \$8 million in cost savings by rigorously validating functional and data requirements, enabling the sunset of a third-party application

Associate Product Owner | Quantum RPS AR

August 2023 - December 2023

Associate Product Owner | CloudmedAI Workdriver

April 2023 - July 2023

Associate Product Owner | Data Acceleration & ETL Dev

August 2022 - March 2023

- Delivered end-to-end onboarding and data ingestion processes for 5+ clients, enhancing client satisfaction and retention
- Structured the development of a scalable SaaS feature, streamlining internal operations and benefiting 1,500+ internal users
- Achieved 90%+ sprint goal success by managing stakeholder priorities, scheduling, and optimizing 2-week sprints
- Drove \$1.5 million in value across 3 strategic objectives by identifying opportunities to optimize workflows through user shadowing, process mapping, and data visualization
- Served 29,000+ internal users across 5 company apps by prioritizing the integration and development of a large language model (LLM) chatbot to increase operational efficiency and productivity
- Reduced chatbot release timeline by 1 month by taking on UX/UI design responsibilities, using Figma
- Created 2 training videos, collaborating with the Data Science team, to raise product awareness of the LLM chatbot by 50%
- Decreased onboarding time by 33% for new hires by creating 5 comprehensive and structured resources

NorCal UVSA | Remote

IT Cabinet Staff Lead

July 2021 - June 2022

- Redesigned WordPress website, incorporating new UX/UI designs, resulting in a 20% increase in web traffic

Asian Student Achievement | Remote

Web Design Intern

October 2021 - April 2022

- Led and completed 2 intern team projects by gathering leadership objectives and requirements, resulting in streamlined project execution
- Achieved a 65% boost in web traffic and a 55% increase in user engagement by initiating a Weebly website redesign

Jade | Remote

UX/UI Engineer

August 2020 - May 2021

- Optimized UX by gathering user feedback and understanding user needs, leading to the development of a more user-friendly SaaS group management solution, using Figma and Google Forms

Projects

Venmo Feature Expansion Case Study

February 2024 - May 2024

- Case study with a focus on exploring the integration of a camera-operated bill-splitting feature to enhance Venmo Groups
- Utilized product research, discovery, user needs, personas, feedback, and A/B testing, resulting in improved user satisfaction and expanding usability

Craigslist Redesign Case Study

October 2023 - January 2024

- Case study on the redesign of Craigslist, with a particular focus on enhancing the buyer user experience
- Led a comprehensive effort to enhance the buyer user experience and journey on Craigslist through extensive product research, discovery, roadmap development, and analyzing test results and user feedback with a UX designer
